### **About the Delaware Museum of Natural History**

As the state's only natural history museum, the Delaware Museum of Natural History opened in 1972 to excite and inform people about the natural world through exploration and discovery. The Museum houses Delaware's only permanent dinosaur display, surrounded by exhibits of mammals, shells, and other specimens from around the world. The Museum manages world-renowned scientific collections of mollusks and birds, including one of the top-12 mollusk collections in the United States.
